

## Notice of Public Open House

### McGraw Falls Hydro Electric Project

McGraw Falls Water Power (MFWP) is proposing to develop a 1.5 – 2 MW hydro electric plant on the Matawin River at the McGraw Falls Dam, 7km southwest of Shabaqua Corners. This will be a peaking development; a rubber dam will be added to the existing weir and will work in coordination with the existing reservoir upstream. The powerhouse will be located approximately 150m downstream of the dam. A wood pole distribution line will run 7km northwest along the existing roadway to the Shabaqua Distribution Station. The map below shows the project location.

The project is subject to the Ontario Ministry of the Environment's Environmental Screening Process for Electricity Projects and the Ministry of Natural Resources Waterpower Program Guidelines.

KBM Forestry Consultants Inc. & ORTECH Power will be hosting a public open house on Tuesday February 26, 2008. This forum will introduce stakeholders to the project and its components.

**The Open House is scheduled for:**

**When:** Tuesday February 26, 2008

**Time:** 4pm to 7:30pm

**Where:** Scandia Room – First Floor  
The Valhalla Inn  
1 Valhalla Rd.  
Thunder Bay, ON  
(807) 577-1121
